EXTENDED VALUES OF 'LOW-USE' INLAND WATERWAYS

InCom Working Group Report N° 228 – 2025

PIANC REPORT N° 228

INLAND NAVIGATION COMMISSION

EXTENDED VALUES OF 'LOW-USE' INLAND WATERWAYS

20 June 2025

PIANC has Technical Commissions concerned with inland waterways and ports (InCom), coastal and ocean waterways (including ports and harbours) (MarCom), environmental aspects (EnviCom) and sport and pleasure navigation (RecCom).

This report has been produced by an international Working Group convened by InCom and including representatives of Sister Organisation Inland Waterways International (IWI). Members of the Working Group represent seven different countries and are acknowledged experts in their profession.

The objective of this report is to provide information and recommendations on good practice. Conformity is not obligatory and engineering judgement should be used in its application, especially in special circumstances. This report should be seen as an expert guidance and state-of-the-art on this particular subject. PIANC disclaims all responsibility in the event that this report should be presented as an official standard.

CONTENTS

	LIST OF FIGURES	6
	LIST OF TABLES	6
1	INTRODUCTION	8
1.1	Background	8
1.2	Definition of 'Low-Use Inland Waterways'	9
1.3	Scope and Objectives	9
1.4	Members of the Working Group.....	10
2	CLARIFICATIONS	11
2.1	Different Definitions of 'Low Use'	11
2.2	Relationship between Present Navigable Uses and the Initial Navigable Standards.....	11
3	ASSESSING CURRENT AND EXTENDED VALUES	12
3.1	Immediate Current Values Of Inland Waterways	12
3.2	Political Implications and Expectations	14
3.3	Differentiation on the Basis of Existing Navigation	14
3.3.1	Historical Context and Commercial Freight Transport.....	14
3.3.2	Engineering and Environmental Modifications	14
3.3.3	Expanded Uses and Values.....	14
3.3.4	Sustainable Management and Environmental Considerations	15
4	CASE STUDIES	16
4.1	Principles Guiding the Selection of Case Studies.....	16
4.2	Lombardy Canals, Italy	16
4.2.1	Location and Brief History	16
4.2.2	Operating Authority and Other Controlling Authorities	17
4.2.3	Specific Measures to Extend the Values of the Waterway.....	17
4.2.4	Current Use/Values	18
4.2.5	Potential Uses/Values	18
4.2.6	Benefits Obtained by Extended Values	18
4.2.7	Conditions for Implementation	18
4.2.8	Studies/References on the Lombardy Canals	19
4.2.9	Values	19
4.2.10	Summary	19
4.3	Lachine Canal (Canada)	20
4.3.1	Location and Brief History	20
4.3.2	Operating Authority	21
4.3.3	Specific Measures to Extend the Values of the Waterway	21
4.3.4	Current Use/Values	21
4.3.5	Potential Uses/Values	22
4.3.6	Benefits Obtained by Extended Values (Economic, Social, Etc.)	22
4.3.7	Existing Studies/Initiatives	22
4.3.8	Values	23
4.3.9	Summary	23
4.4	Qinhuai River, Nanjing (China).....	24
4.4.1	Location and History	24
4.4.2	Operating Authority	24
4.4.3	Brief History of Former Use	24
4.4.4	Current Use/Values	25
4.4.5	Potential Uses/Values	26
4.4.6	Existing Studies/Initiatives	27
4.4.7	Values	27
4.4.8	Summary	27
4.5	River Lahn (Germany)	28
4.5.1	Location and History	28
4.5.2	Operating Authority and Any Other Controlling Authorities	30
4.5.3	Specific Measures to Extend the Values of the Waterway.....	30
4.5.4	Current Use/Values	31
4.5.5	Potential Uses/Values	33
4.5.6	Existing Studies/Initiatives.....	33
4.5.7	Summary	33

4.6	Canal Du Rhône au Rhin (Strasbourg-Colmar)	34
4.6.1	Location and History	34
4.6.2	Operating Authority and Any Other Controlling Authorities	35
4.6.3	Measures to Extend the Values of the Waterway	35
4.6.4	Existing Studies/Initiatives	38
4.6.5	Values	38
4.6.6	Summary	39
4.7	Forth & Clyde Canal (Glasgow, Scotland)	40
4.7.1	Location and History	40
4.7.2	Operating Authority and Any Other Controlling Authorities	41
4.7.3	Specific Measures to Extend the Values of the Waterway	42
4.7.4	Current Use/Values	44
4.7.5	Potential Uses/Values	44
4.7.6	Benefits Obtained by Extended Values	45
4.7.7	Existing Studies/Initiatives	45
4.7.8	Values	45
4.7.9	Summary	46
4.8	SMALLER WATERWAYS IN FLANDERS	47
4.8.1	Location and History	47
4.8.2	Operating Authority	48
4.8.3	Specific Measures to Extend the Values of the Waterway	48
4.8.4	Current Use/Values	48
4.8.5	Potential Uses/Values	48
4.8.6	Summary	51
4.9	FLORIDA INLAND NAVIGATION DISTRICT (FIND)	52
4.9.1	Location and History	52
4.9.2	Operating Authority	53
4.9.3	Specific Measures to Extend the Values of the Waterway	54
4.9.4	Current Use/Values	55
4.9.5	Potential Uses/Values	56
4.9.6	Benefits Obtained by Extended Values	57
4.9.7	Values	58
4.9.8	Summary	58
5	FINANCE AND FEASIBILITY	59
5.1	Finance	59
5.2	Feasibility Drivers	59
5.2.1	Socio-Economic	59
5.2.2	Cultural Value	60
5.2.3	Environmental Value and Protection	60
5.2.4	Public Safety and Water Resources	61
6	RELATION TO PIANC AND UN GOALS	62
6.1	Working with Nature	62
6.2	Climate Change	63
6.3	UN Sustainable Development Goals (SDGs)	63
7	CONCLUSION	65
8	REFERENCES	66
8.1	PIANC Reports	66
9	APPENDIX I – TERMS OF REFERENCE	68
9.1	Earlier Reports to be Reviewed	68
9.2	Intended Product	68
9.3	Working Group Membership	69
9.4	Relevance to Countries in Transition	69
9.5	Climate Change, Working with Nature and SDGs	69

LIST OF FIGURES

Fig. 1: Pie chart showing all the ecosystem services, along with the specific values related to navigation at the top of the chart.	12
Fig. 2: The network of navigli owned by Lombardy Region, converging on Milan	17
Fig. 3: Values of the Lombardy Canals	19
Fig. 4: Location of the Lachine Canal	20
Fig. 5: Cover of the Management Plan Implementation Report	23
Fig. 6: Values of the Lachine Canal.....	23
Fig. 7: Lachine Canal Lock No. 1 in the Old Port of Montreal.	23
Fig. 8: Location of Qinhuai River	24
Fig. 9: Passengers transported in the downtown section of the Qinhuai River (2014-2024).	26
Fig. 10: The dock for tourist excursion boats on the inner Qinhuai River in Nanjing	26
Fig. 11: Values of the Qinhuai River in Nanjing (downtown section).....	27
Fig. 12: New Honglan Lock connecting the commercially used Qinhuai river to the Yanzhi river ..	28
Fig. 13: Lahn weir at Runkel	28
Fig. 14: Location of the river Lahn, unclassified waterway within the Federal waterway network	29
Fig. 15 : Map highlighting the different sections of the river Lahn.....	30
Fig. 16: Development of navigational use of the 12 lower Lahn (1970-2022)	31
Fig. 17: The joint target system for the Lahn Concept	32
Fig. 18: Current and potential values along the River Lahn	32
Fig. 19: The canal du Rhône au Rhin, northern branch	34
Fig. 20: Institutional framework for the 24.5km connecting canal and branch to Neuf-Brisach ...	35
Fig. 21: Relationship between mooring facilities and boat traffic through the restored canal	37
Fig. 22: Values of the restored Canal du Rhône au Rhin.....	38
Fig. 23: Wetland area adjacent to the canal to be maintained by water release from the canal ..	39
Fig. 24: The hire boat base operated by Le Boat at Boofzheim	39
Fig. 25: Plan for the new lock 74bis on the canal, displaced to preserve a kingfisher's nest	39
Fig. 26: Location of the Glasgow Branch Canal	40
Fig. 27: Detail of the route of the Glasgow Branch Canal.....	41
Fig. 28: Operation of the Smart Canal system.....	43
Fig. 29: New lowered length of the branch canal between two locks adjacent to the motorway..	44
Fig. 30: Values of the Glasgow Branch Canal	46
Fig. 31: Moorings at Spiers Wharf, beside warehouses converted for mixed use	46
Fig. 32: The smaller waterways in Flanders.....	47
Fig. 33: Potential values of the smaller waterways in Flanders	48
Fig. 34: Watertruck+ barge on the Leuven-Dijle Kanaal.....	49
Fig. 35: Zulu barge.....	51
Fig. 36: Map of Florida Inland Navigation District waterways	52
Fig. 37: Snook Islands Natural Area project	58
Fig. 38: Values of the Atlantic Intracoastal Waterway and Okeechobee Waterway in Florida	58

LIST OF TABLES

Table 1: Characterisation of the observed trends for each value, as a waterway declines towards 'low-use' status	13
Table 2: Economic impact assessment by VNF in early 2023	37
Table 3: Estimated Economic Impacts of Florida District Waterways.....	56
Table 4: Recreational Navigation Infrastructure supported by the Waterways	57
