## GUIDELINES FOR SUSTAINABLE RECREATIONAL NAVIGATION INFRASTRUCTURE

*A Guide for Applying Working with Nature to Recreational Navigation Infrastructure Projects*

**RecCom Working Group Report N° 148 – 2023**

# **PIANC REPORT N° 148**

RECREATIONAL NAVIGATION COMMISSION

## **GUIDELINES FOR SUSTAINABLE RECREATIONAL NAVIGATION INFRASTRUCTURE**

April 2023

PIANC has Technical Commissions concerned with inland waterways and ports (InCom), coastal and ocean waterways (including ports and harbours) (MarCom), environmental aspects (EnviCom) and sport and pleasure navigation (RecCom).

This report has been produced by an international Working Group convened by the Recreational Navigation Commission (RecCom). Members of the Working Group represent several countries and are acknowledged experts in their profession.

The objective of this report is to provide information and recommendations on good practice. Conformity is not obligatory and engineering judgement should be used in its application, especially in special circumstances. This report should be seen as an expert guidance and state-of-the-art on this particular subject. PIANC disclaims all responsibility in the event that this report should be presented as an official standard.

# TABLE OF CONTENTS

<b>1</b>	<b>General</b>	<b>1</b>
1.1	Preface	1
1.2	Working Group Process	1
1.3	Structure of the Report	2
1.4	Working Group	2
1.4.1	Members of the Working Group	2
1.4.2	Acknowledgements	3
1.4.3	Related PIANC Reports	4
<b>2</b>	<b>Introduction and Guiding Principles</b>	<b>5</b>
2.1	Sustainability Background and Justification	5
2.2	Issues Related to Marina Sustainability	6
2.2.1	Practical Experience and Concerns	6
2.2.2	Rethinking Sustainability	7
2.3	Benefits of Sustainable Recreational Navigation Infrastructure	9
2.3.1	Sustainable Development and Infrastructure	9
2.3.2	Boating as an Economic Engine with Social and Environmental Benefits	10
2.3.3	The Role of Navigation Infrastructure in Sustainable Tourism	10
2.3.4	The Role of Recreational Navigation in Large Infrastructure Projects	11
2.3.5	The Role of Recreational Navigation in Urban Waterfront Projects	12
2.3.6	The Role of Recreational Navigation in Conservation	13
2.4	Environmental Sustainability Challenges	13
2.4.1	Weakness of the Environmental Impact Assessment Regulatory Framework	13
2.4.2	Conflicts in the Environmental Permitting Process	14
2.4.3	The 'Working with Nature' Approach and the Regulatory Process	15
2.4.4	Availability of Baseline Data for Environmental Impact Studies	16
<b>3</b>	<b>Working with Nature</b>	<b>18</b>
3.1	The Working with Nature Philosophy	18
3.2	Guidance for the Implementation of Working with Nature	19
3.3	Unique Opportunities for Recreational Navigation Projects	21
3.3.1	The Need for a New Specific Guidance	21
3.3.2	Proactive Marina Environmental/Ecological Design	21
3.3.3	Social Sustainability and Guest Experience	22
<b>4</b>	<b>Step 1: Establish project needs and objectives</b>	<b>24</b>
4.1	Approach	24
4.2	Primary Goal and Multi-Purpose Goals	24
4.2.1	Marina Project Needs	25
4.2.2	SMART – Methodology Suggestion	26
4.3	Considerations for Public vs Private Projects	26
4.3.1	Issues Specific to Public Projects	26
4.3.2	Considerations for Private Marina Developments	27
4.4	Inclusion of recreational navigation in other infrastructure projects	28
4.5	Climate Change Adaptation and Mitigation Goals	29
4.6	The Role of the Marina Designer	30
<b>5</b>	<b>Step 2: Understand the environment</b>	<b>31</b>
5.1	Approach	31
5.1.1	Current Practice and Proposed Approach	31
5.2	Basic Considerations	32
5.2.1	Summary and Discussion of Basic Guidance	32
5.2.2	Environmental Issues	32
5.3	Additional Guidance	34
5.3.1	Planning Process and Investment in Studies	34
5.3.2	Social Issues and Understanding of the Human Environment	35
5.3.3	Climate Change	36
5.3.4	Relationship with Regulatory Requirements	37

<b>6</b>	<b>Step 3: Meaningful stakeholder engagement to identify win-win Opportunities .....</b>	<b>38</b>
6.1	Approach.....	38
6.2	Community Participation and Meaningful Stakeholder Engagement .....	39
6.2.1	Public Participation Principles and Challenges .....	39
6.2.2	Community-Oriented Design and Public Participation .....	40
6.2.3	Technical Requirements of Stakeholder Engagement.....	41
6.2.4	Types of Stakeholder engagement. ....	41
6.3	Implementation Guidance .....	42
6.3.1	Stakeholder Engagement Recommendations.....	42
6.3.2	Community: Climate Change Vulnerability and Resilience .....	43
<b>7</b>	<b>Step 4 : Prepare project proposals/design.....</b>	<b>44</b>
7.1	Approach.....	44
7.1.1	Summary of Basic Guidance .....	44
7.1.2	Recreational Navigation Issues .....	44
7.2	High-Value Ecological and Social Sustainable Solutions.....	45
7.2.1	Resources and Energy Conservation Design .....	45
7.2.2	Proactive Environmental/Ecological Design .....	46
7.2.3	Proactive Community Inclusion.....	47
7.3	Proactive Consideration of Climate Change .....	47
7.3.1	Climate Adaptation and Adaptable Design .....	47
7.3.2	Climate Change Mitigation .....	48
7.4	Multi-Purpose Solutions .....	49
<b>8</b>	<b>Implementation Best Practices and Case Studies .....</b>	<b>50</b>
8.1	Best Practices in Marina Design and Working with Nature.....	50
8.2	Example of Environmental and Social Design Features .....	50
8.2.1	Puerto Calero, Lanzarote, Canary Islands, Spain .....	50
8.2.2	Confidential Marina Project, Exumas, Bahamas .....	51
8.2.3	Fort Pierce City Marina, Florida, USA .....	52
8.2.4	Admirals Cove Marina, Jupiter, Florida, USA .....	54
8.2.5	Harbourside Place, Jupiter, Florida, USA .....	54
8.2.6	Jupiter Yacht Club, Jupiter, Florida, USA .....	56
8.2.7	South Cove Natural Area, West Palm Beach, Florida, USA .....	56
8.2.8	IGY Málaga Marina, Spain.....	57
8.2.9	Coffs Harbour Northern Breakwater Upgrade, NSW, Australia .....	57
8.2.10	Clump Point Recreational Boating Facility, Great Barrier Reef Marine Park, QLD, Australia.....	59
8.2.11	Han Yuan Marina, Taihu Lake, China .....	60
8.2.12	Rodney Bay Marina Farmer's Market, St Lucia .....	61
8.2.13	Puerto Los Cabos Marina, Baja California Sur, Mexico.....	61
8.2.14	Zighy Bay Marina, Six Senses Resort, Oman .....	62
8.2.15	Marina di Santa Marinella, Italy .....	62
8.3	Innovative Process Examples .....	63
8.3.1	Puerto Los Cabos Marina, Baja California Sur, Mexico.....	63
8.3.2	Ritz Carlton Marina, Grand Cayman .....	64
8.3.3	Confidential Marina Project, Exumas, Bahamas .....	65
8.3.4	Haicang Bay, Xiamen, China .....	66
8.4	Planning and Regulatory Guidance and Coordination.....	66
8.4.1	Estuarine Island Creation with Dredged Material, Palm Beach, Florida, USA .....	67
8.4.2	Elizabeth Harbour Management Plan, Great Exuma, Bahamas.....	67
8.4.3	Marina Guidelines, Thompson-Okanagan region, British Columbia, Canada .....	68
8.5	Non-Regulatory and Certification Programmes .....	69
<b>9</b>	<b>REFERENCES .....</b>	<b>71</b>
<b>10</b>	<b>APPENDIX A: GLOSSARY, ABBREVIATIONS AND SYMBOLS.....</b>	<b>76</b>
<b>11</b>	<b>APPENDIX B: TERMS OF REFERENCE .....</b>	<b>77</b>
<b>12</b>	<b>APPENDIX C: WORKING WITH NATURE POSITION PAPER .....</b>	<b>80</b>

## LIST OF FIGURES

Figure 2.1: Sustainability planning approach practical challenges [Biondi, 2019b].....	8
Figure 2.2: Sustainability planning approach new paradigm [Biondi, 2019b] .....	8
Figure 3.1: WwN steps in the marina planning and permitting process (modified from Biondi (2019b)) .....	18
Figure 3.2: The Working with Nature approach [PIANC, 2018] .....	20
Figure 3.3: Basic steps of WwN in a dynamic, adaptive management process [PIANC, 2018] .....	20
Figure 4.1: Working with Nature Step 1 Observations [Biondi, 2019b] .....	30
Figure 5.1: Working with Nature Step 2 Observations [Biondi, 2019b] .....	31
Figure 5.2: Community needs to participate in tourism and other challenges [Biondi, 2019b] .....	36
Figure 6.1: Working with Nature Step 3 Observations [Biondi, 2019b] .....	38
Figure 6.2: Different types of stakeholder engagement [Biondi, 2019b] .....	42
