PIANC REPORT N° 125/II
INLAND NAVIGATION COMMISSION

TECHNICAL REPORT ON THE STATUS OF RIVER INFORMATION SERVICES

2019

PIANC has Technical Commissions concerned with inland waterways and ports (InCom), coastal and ocean waterways (including ports and harbours) (MarCom), environmental aspects (EnviCom) and sport and pleasure navigation (RecCom).

This report has been produced by an international Working Group convened by the Inland Navigation Commission (InCom). Members of the Working Group represent several countries and are acknowledged experts in their profession.

The objective of this report is to provide information and recommendations on good practice. Conformity is not obligatory and engineering judgement should be used in its application, especially in special circumstances. This report should be seen as an expert guidance and state-of-the-art on this particular subject. PIANC disclaims all responsibility in the event that this report should be presented as an official standard.

PIANC Permanent Working Group 125

Contributions to this technical report on the Implementation Status of River Information Services 2011-2019 have been received from several members of the international RIS community. The report has been compiled by the members of the PIANC RIS Working Group 125. The contributors to the status report are Mr Piotr Durajczyk (Poland), Mr Jan Bukovsky (Czech Republic), Mr Dierik Vermeir, Mr Piet Creemers (Belgium), Mr Alaric Blakeway (France), Mrs Birgitta Schäfer (Germany), Mr Robert Rafael, Mr Mario Sattler, Mr Jürgen Trögl (all Austria) and Mr Csaba Kovacs (Hungary), Mr Giang Hoáng Hồng (Vietnam), Mr Pedro Vila (Spain), Mr Peter Stuurman and Mr Jeffrey van Gils (both from the Netherlands), Mr Evgeny Brodsky (Russia), Mr Richard Lockwood, Mr Brian Tetreault (both USA) and Mr Cas Willems (the Netherlands and Chairman).
