PIANC REPORT N° 156
INLAND NAVIGATION COMMISSION

**E-NAVIGATION
FOR INLAND WATERWAYS 2017**

2016

PIANC has Technical Commissions concerned with inland waterways and ports (InCom), coastal and ocean waterways (including ports and harbours) (MarCom), environmental aspects (EnviCom) and sport and pleasure navigation (RecCom).

This report has been produced by an international Working Group convened by the Inland Navigation Commission (InCom). Members of the Working Group represent several countries and are acknowledged experts in their profession.

The objective of this report is to provide information and recommendations on good practice. Conformity is not obligatory and engineering judgement should be used in its application, especially in special circumstances. This report should be seen as an expert guidance and state-of-the-art on this particular subject. PIANC disclaims all responsibility in the event that this report should be presented as an official standard.

TABLE OF CONTENTS

1	Foreword	5
2	List of abbreviations	7
3	Introduction.....	11
3.1	Origin of WG 156 and Concepts.....	11
3.2	Objectives of PIANC Working Group 156 (Terms of Reference)	11
3.3	WG 156 Approach	11
4	Status and framework for River Information Services	14
4.1	Short Introduction to RIS	14
4.2	RIS-Related Bodies and Organisations.....	16
4.2.1	<i>Global Level.....</i>	17
4.2.2	<i>European Level.....</i>	17
4.2.3	<i>United States</i>	20
4.3	Relevant RIS Initiatives	22
4.3.1	<i>European Initiatives</i>	22
4.3.2	<i>US Initiatives.....</i>	22
5	Status and framework for e-Maritime and e-Navigation.....	23
5.1	Introduction.....	23
5.1.1	<i>e-Navigation in the Maritime World</i>	23
5.1.2	<i>e-Maritime.....</i>	29
5.2	e-Maritime and e-Navigation Related Bodies and Organisations	32
5.2.1	<i>Global Level.....</i>	32
5.2.2	<i>European Level.....</i>	34
5.2.3	<i>United States</i>	35
5.3	Relevant Maritime Initiatives.....	35
5.3.1	<i>Initiatives and Project in the Context of e-Maritime</i>	35
5.3.2	<i>Initiatives and Projects in the Context of e-Navigation in the US</i>	35
5.3.3	<i>Initiatives and Projects in the Context e-Navigation in Europe</i>	36
6	Findings/Results of e-Navigation for Inland Waterways	37
6.1	Definition and Considerations of e-Navigation for Inland Waterways	37
6.1.1	<i>Initial Considerations</i>	37
6.1.2	<i>The Definition of e-Navigation for Inland Waterways</i>	37
6.1.3	<i>Global RIS Framework for e-Navigation.....</i>	38
6.1.4	<i>RIS Service Directory</i>	39
6.1.5	<i>RIS Registry.....</i>	39
6.1.6	<i>RIS Service Specifications</i>	39
6.2	Whether RIS Could Benefit from the Developments in e-Navigation.....	39
6.2.1	<i>e-Navigation Pillars.....</i>	39

8.3.1	<i>Comparison of MSPs to RIS Services and Vice Versa</i>	42
8.3.2	<i>e-Navigation Developments Relevant for Inland Navigation</i>	54
8.4	Interoperability between e-Navigation and River Information Services	64
8.5	Cost, Benefits and Risks of e-Navigation	64
8.6	Possible Opportunities for Improving Transport Efficiency, Logistics and Administrative Processes	64
9	Conclusions	66
9.1	Introduction	66
9.2	General Conclusions	66
9.3	Lessons Learnt: e-Maritime	67
9.4	Lessons Learnt: e-Navigation in the Maritime World.....	68
10	Recommendations	70
11	List of references.....	72
12	Annex.....	74
12.1	RIS Initiatives.....	74
12.1.1	<i>European Initiatives</i>	74
12.1.2	<i>US Initiatives</i>	86
12.2	E-Navigation Initiatives	87
12.2.1	<i>Initiatives in the e-Maritime-Related Information Services</i>	87
12.2.2	<i>e-Navigation Initiatives in the United States</i>	91
12.2.3	<i>e-Navigation Initiatives in Europe</i>	93
12.3	Comparison of MSP and RIS Services and Vice Versa	96
12.3.1	<i>Comparison of Maritime Service Portfolio's with RIS Services (and RIS Key Technologies)</i>	96
12.3.2	<i>Comparison of RIS Services (& RIS Key Technologies) with Maritime Service Portfolio's</i>	112
