MarCom

Report of WG 36 - October 2005

Catalogue of Prefabricated Elements

INTERNATIONAL NAVIGATION ASSOCIATION

1. **INTRODUCTION**
 - 1.1 Summary
 - 1.2 Terms of Reference
 - 1.3 Members
 - 1.4 Work of the PIANC Working Group 36
 - 1.5 Acknowledgements
 - 1.6 Foreword
2. **ROLE OF PREFABRICATED ELEMENTS IN MARITIME WORKS**
 - 2.1 Background
 - 2.2 Types of application considered in this catalogue
 - 2.2.1 Breakwaters
 - 2.2.2 Revetments, seawalls & coast protection
 - 2.2.3 Quays
 - 2.2.4 Bank protection

3. CONSIDERATIONS FOR SELECTION

- 3.1 Prefabricated elements for breakwaters
 - 3.1.1 Types
 - 3.1.2 Structural integrity
 - 3.1.3 Hydraulic performance
 - 3.1.4 Constraints
 - 3.1.5 Maintenance
 - 3.1.6 Construction costs
 - 3.1.7 Materials
- 3.2 Prefabricated elements for quays
 - 3.2.1 Types
 - 3.2.2 Structural integrity
 - 3.2.3 Hydraulic performance
 - 3.2.4 Maintenance
 - 3.2.5 Materials
- 3.3 Prefabricated elements for revetments and seawalls
 - 3.3.1 Types
 - 3.3.2 Structural integrity
 - 3.3.3 Hydraulic performance
 - 3.3.4 Maintenance
 - 3.3.5 Materials
- 3.4 Prefabricated elements for bank protection
 - 3.4.1 Types
 - 3.4.2 Structural integrity
 - 3.4.3 Hydraulic performance
 - 3.4.4 Constraints
 - 3.4.5 Maintenance
 - 3.4.6 Construction costs
 - 3.4.7 Materials
